

## 2nd Grade Rocks!

September 22, 2016

We have had a wonderful week in second grade! The students are continuing to work hard every day. We talked about God's greatest gift of Jesus in Religion this week. We completed Superkids Unit 1 Week 1 in Reading. We finished our study of the symbols of the United States in Social Studies. In science we designed roller coasters on our Chromebooks and talked about different kinds of engineers. In math we explored strategies for addition. We took the STAR Reading and Math tests this week. Please look for those results in the Tuesday folder next week. We will use the results of the STAR Reading tests for student reading levels and Accelerated Reading Levels. The test results will be a great tool for us to help differentiate instruction for students of all levels in reading and math. The tests will be taken several times throughout the year to show student growth.

Please make sure you're checking Progressbook weekly, as homework is posted for a reminder. Thank you for your support and help at home!

In preparation for First Reconciliation, we will be continuing parent meetings next week. Please make sure you attend one of these meetings. Please see the dates listed below. If you have any questions regarding this, please reach out to Janet Majka in the Religious Education Office. Please also keep on your calendar the Rite of Enrollment for First Reconciliation at Mass on Sunday October 16. Join us for the 9:00, 10:30 or noon mass that day. This is a great time to come together as a family of God and lift our 2nd graders up in prayer!

Monday will be a Cleveland Indians Spirit Day WHEN the Indians win. Students may wear Cleveland Indians' spirit shirts and hats with their uniform shorts or pants. Wear tennis shoes too.

We hope you have a great weekend! We look forward to another great week in second grade!

### What is happening next week in second grade

Language Arts	Finish Superkids Hit 2nd Grade! Week 2
Math	Test Tuesday & Subtraction Strategies
Social Studies	Citizenship
Science	Tools used in science
