

## Using PrestoPay

1. Log into **ShopwithScript.com** and click on **Shop**

2. You have 3 options to navigate your shopping
  - a. A keyword/name search by clicking on the magnifying glass at top right
  - b. Selecting the starting letter of what you are searching for
  - c. Browse by category

3. Once you find what you want to purchase, you can click on it to see what percentage the rebate is and the different ways you can purchase:

This one shows that you may buy a physical card or an ecard and you will receive 7% of your purchase as a rebate. If you already have a physical card, you may register that card and just reload the amount you want to add onto that card.

Not all places offer all 3 of these options. You will also see some that look like this:

This one means physical ONLY and no reload option

This one means physical card only but once you have a card you can just reload it instead of having to buy a new one.

- Once you select where you want to buy, you will be given options for your purchase. This is where you pick either physical, ecard or reload. Denominations, minimums and maximums are different for different places. You are able to shop and use online as well. Enter the amount you want to purchase and click on **Add to Cart**.
